Working Experience

Since February 2018: La Naranja en Números (Uno Contra Uno Web Radio)
First radio sports program dedicated exclusively to basketball stats and basketball data analysis. (Host and producer).

Since July 2011: WorldHoopstats.com
It's a reference to historical data from basketball leagues around the world, with specialized news, tracking and statistical analysis. Main clients like agencies, representatives and coaches use our statistical reports. (Programmer, statistical researcher, and journalist)

March 2012 to March 2013: Olé.com.ar
Sports Journalism media, part of Clarín Group. Web backend internship as a journalist (specialization in basketball).

March 2010 to September 2010: CABB (Argentine Basketball Confederation)
FIBA Organizer System Operator for Argentina.

September 2009 to March 2011: ZonaDosTres.com (Las Palmas de Gran Canaria, Spain)
Website about Spanish and European basketball: ACB League, Euroleague, King's Cup, European competitions, NBA, WNBA, European female basketball, national teams, etc. (Programmer and journalist, specialized in statistics)

July 2006 to March 2009: MarketingWebDesign.net (Barcelona, Spain)
Business specialized in SEO (search engine optimization), natural positioning and alternative marketing channels. Project leader and head of the development area.

September 2004 to March 2007: LaZonaPintada.com
Argentine leagues (LNB, TNA), national teams, NBA, different national minor categories. (Programmer and journalist, specialized in statistics)

Systems Knowledge

PHP-MySQL, HTML 5, CSS3, JQuery/JSON.
